

AI Developer Report

Name: mavi

Email: mavi@gmail.com

AI Skill Detection

Specialization: Software Developer

Tech Stack: No specific tech stack identified from provided data.

Strengths: Active project development (38 public repositories created in approximately 1.5 years), Strong practical development focus (high development score of 490), Proactive in building and exploring new technologies

Improvements: Enhance problem-solving and algorithmic skills (current score is 0), Deepen theoretical knowledge and demonstrate it through contributions or documentation, Expand professional network and engage in collaborative projects, Clearly articulate specific technical expertise and preferred tech stack

Developer DNA Profile

Personality: Hands-on Builder

Working Style: Independent and Self-driven

Collaboration Score: 55

Innovation Score: 65

Global Ranking

Tier: Bronze

Score: 163
