

AI Developer Report

Name: Vinu Wankhade

Email: vinu1212@gmail.com

AI Skill Detection

Specialization: Algorithmic Specialist

Tech Stack: N/A - Insufficient data beyond problem-solving

Strengths: Exceptional problem-solving and algorithmic skills, demonstrated by 756 LeetCode problems solved., Strong proficiency in tackling complex challenges, including 57 hard-difficulty problems., Solid foundation in data structures and algorithm design.

Improvements: Needs to demonstrate practical development experience and project implementation beyond competitive programming., Should explore specific domain expertise or full-stack development to broaden technical scope., Lacks visible collaboration, open-source contributions, and engineering maturity indicators from GitHub or Stack Overflow.

Developer DNA Profile

Personality: Problem Solver

Working Style: Independent

Collaboration Score: 20

Innovation Score: 70

Global Ranking

Tier: Bronze

Score: 200
